

## Parents

'1 'o prevent entanglements and strangulation all strings and ties MUST be removed from your child's clothing.

:• See attachment second bulleted point

Please remove any strings, elastics that could get caught on the playground! With your cooperation at home to remove strings, children will not be attending the Daycare with clothing that could become a potential hazard.

The Ministry of Community and Social Services has mandated playground safety as part of our licencing. Playgrounds and children's clothing are to be inspected daily to ensure safety. The teachers do not like to remove or cut strings from jackets. Strings still found, will be removed by teachers.

The attachment lists excellent practices that can be implemeiAated on all playgrounds. The spring weather is here with outdoor play being part of many families weekend 'and evening activities. Assisting the centre staff in practicing the attached will assist in safe play for all.

I have reviewed this notice and agree to assist the teachers by removing strings and possible hazards from my child's(ren) clothing
